Infection Prevention and Control Online Course

Fadi Zaben RN MSN

Nursing Education Department

IMET2000-Pal

Course Goals:

The goals of the course are:

- ④ To equip HCP with the fundamental skills of Infection Prevention and Control.
- ④ To describe the mechanisms involved in the transmission of pathogenic organisms, including prevention and control strategies in order to reduce the spread of infection in the healthcare setting.

- Identify circumstances where the healthcare professional would utilize barriers and personal protective equipment (PPE) in order to reduce hazardous exposures in the health care settings.
- To develop skills to assess, plan and manage infection prevention and control efforts within their organizations and communities.

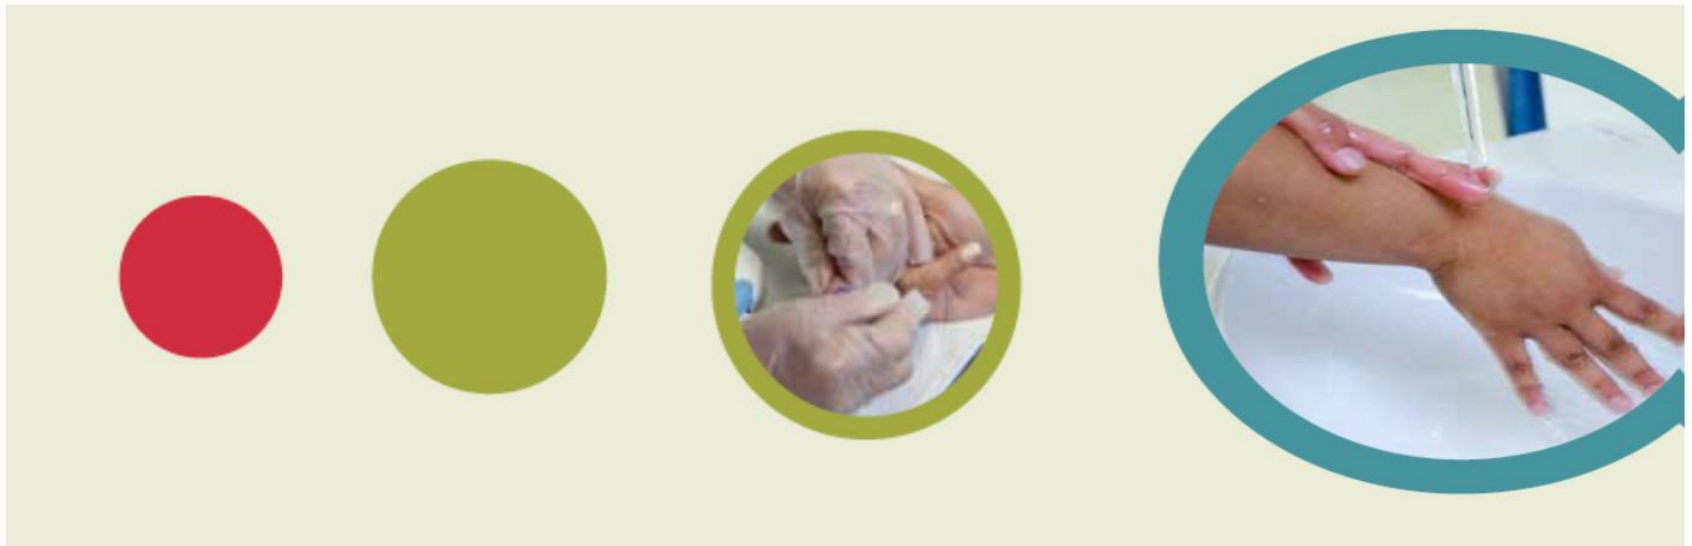

Course Structure:

- ✘ This is a distance education course and is offered entirely online.
- ✘ The course consists of five modules.
- ✘ Modules vary in length from 30-70 slides.
- ✘ There is a small quiz break between modules.
- ✘ Evaluation is based on online final exam participation.
- ✘ Graduates will receive a certificate of completion from IMET2000-pal and MOH (with a minimum grade 65% in each module).

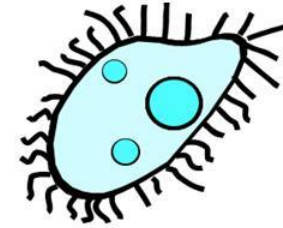

Module One

Infection Control: Past and Present

Module Two

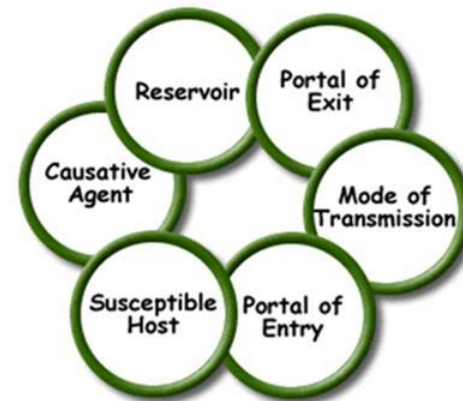

What is an Infection?

2.1 Define the infection Terminologies.

2.2 Infection (types of infection, germs, host).

2.3 Chain of Infections.

Module Three:

Blood borne Pathogens

3.1 Identify the blood borne diseases.

3.2 Describe HIV, HBV and HCV.

3.3 Describe the modes of transmission of HIV and HBV.

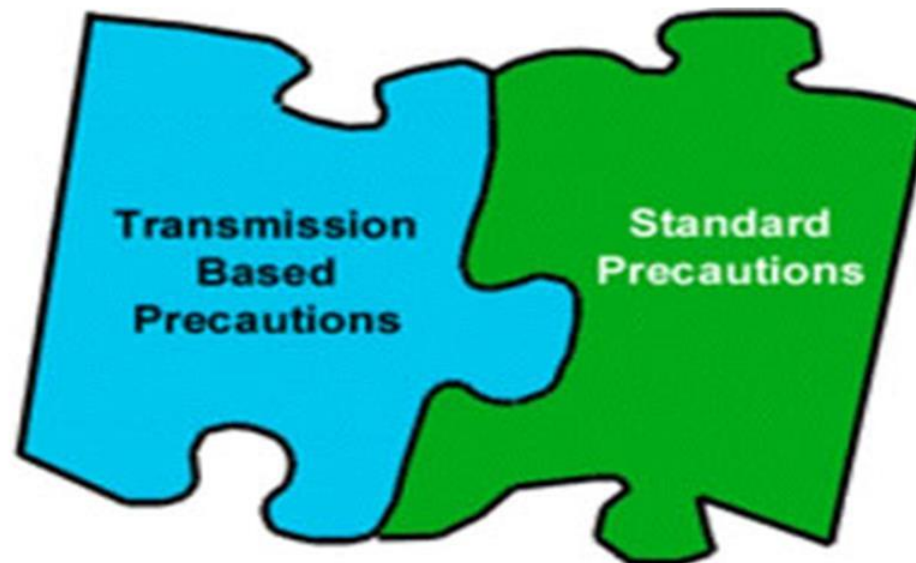

3.4 Identify the critical elements in the Exposure Control Plan.

Module Four:

The Prevention and Control of Infection

Module Five:

Healthcare Associated Infections (HAIs)

1. Central line-associated bloodstream infections (CLABSI).
2. Catheter-associated urinary tract infections (CAUTI).
3. Surgical site infections (SSI).
4. Ventilator-associated pneumonia (VAP).

Course Coordinators:

- IMET2000-Pal.

- MOH.

Who should take this course?

- ✚ Physicians.
- ✚ Nurses.
- ✚ Managers.
- ✚ Infection control team members.
- ✚ Other health care professionals.
