IMET2000 Delivers Urgent Aid to Gaza

IMET2000
International Medical Education Trust

Urgent Medical Relief to Gaza Al Shifa Hospital

Made Possible by Generous Grant from:
International Medical Education Trust

Implementation and supervision:
Palestinian American Medical Association

May-26-2021

We are very pleased to have been able to deliver urgent aid to Al Shifa Hospital in Gaza. We hope this aid will help alleviate the suffering of people in Gaza after the recent crisis.

We would like to take this opportunity to thank our sponsors and supporters for their generosity and immediate response to our call. We would also like to thank our partners in the Palestinian American Medical Association (PAMA), without whom this mission would have been impossible.

IMET2000 Sponsors Jasmine Society for Children with Mental and Learning Disabilities

We have signed up an agreement with Jasmine Society to sponsor 20 children with learning disabilities in Ramallah. This grant covers the treatment needs of those kids who mostly belong to disadvantaged families.

We are proud of this long-lasting partnership with Jasmine Society and are very grateful for our supporters without whom we would not have been able to achieve this.

IMET2000 Donates another Oxygen Generators to Areas Badly Hit with COVID-19 in Palestine

Al-Taibeh village

Ya'bed region

Ta'nek village

Zabuba region

IMET2000 continues to support the north and rural regions in Palestine with 8 Oxygen Generators. Now, Jenin governorate, Ya'bed region, Al-Taibeh village, Zabuba region, and Ta'nek village are able to provide people who suffer from COVID-19 or post COVID-19 symptoms with these generators.

This project also aims to facilitate the discharge of patients from hospitals as soon as it is safe to do so, in order to open up more spaces for people with serious symptoms.

IMET2000 Organised Four Basic Life Support Training Workshops this Month

9/5/2021

23/5/2021

30/5/2021

31/5/2021

IMET2000-Pal in cooperation with American Arab University and Bethlehem University organised four:

Critical Care Training Workshops: Basic Life Support (BLS) for Physicians and Nurses

The three workshops were attended by 40 doctors and nurses from different hospitals in the West Bank and took places in the American Arab University-Jenin, Al-Rayhan and Bethlehem University. This training prompted physicians and nurses to recognize several life-threatening emergencies, give high-quality chest compressions, deliver appropriate ventilation and provide early use of an AED according to American Heart Association Guidelines.

**Dr Motaz has completed his first year of the
specialization program in the field of
Neurosurgery - Egypt**

Many Congrats!!
