- 3. IMET2000 Organised Advanced Cardiovascular Life Support Training Workshop at IMET2000-Pal Training Centre**
- 4. IMET2000 Organised Two Basic Life Support Training Workshops this February**

IMET2000 Has Been Accredited for Trauma Evaluation and Management (TEAM) and STOP THE BLEEDING According to the Regulations of the American College of Surgeons

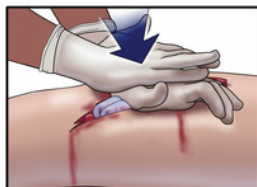

As a continuation of what was started by IMET2000-Pal in cooperation with the Association for Advanced Trauma Resuscitation and accidents in Jordan, a team of trainees from Palestine participated in the “STOP THE BLEED” training and Trauma Evaluation and Management (TEAM) at the Centre Education of the Jordanian Islamic Hospital in the capital, Amman.

The training extended for two days, according to the international principles of the American College of Surgeons (ACS) and under the supervision of a team of trainers recognised by ACS, which included Dr Ahmed Al-Shalalfa, consultant orthopaedics, joints and fractures and an international trainer in the field of injuries and accidents, and Dr Osama Al-Odat, a world-class trainer with advanced injuries and accidents.

Mr Fady Zaben, the representative of IMET2000-Pal dictated that the development of these training programmes for life support and injuries will make a quantum leap in the field of life support training health personnel, medical and nursing students, and raising their efficiency, which will be reflected in the quality of service provided to patients Palestinian Ministry of Health hospitals. He also stressed that this training is the first and most important step in order to start such training in Palestine.

IMET2000 Held Essential First-Aid Skills for Mums and Care Givers of Children with Disabilities

IMET2000-Pal organised a training workshop on February 6th, 2023, in cooperation with the Riyadh Association for the Care of Children with Disabilities, to raise awareness among mothers on First Aid for children.

The workshop was conducted by Dr Motaz Darghama, the Medical Education Officer at IMET2000-Pal, and covered several aspects, including emergency health awareness, handling choking incidents, first aid for fainting and bleeding and cardiac resuscitation for children.

This workshop is part of the IMET2000 plan to increase health awareness in the Palestinian community.

IMET2000 Organised Advanced Cardiovascular Life Support Training Workshop at IMET2000-Pal Training Centre

February 19th&20th 2023, IMET2000-Pal held a workshop covering advanced cardiopulmonary resuscitation attended by 6 doctors and nurses from different hospitals. It was titled:

Advanced Cardiovascular Life Support (ACLS) Provider Training for Doctors

The workshop was opened by Dr Fajr Sarhan who welcomed the attendees and outlined different events organised by IMET2000. The workshop was directed by Dr Farid Abu El Liel a reliable instructor from the American Heart Association. The training involved the use of medical dolls which helped educate the trainees on how to perform advanced cardiac resuscitation on patients that needed immediate aid and allowed them to practice it. This was alongside a scientific and practical explanation provided by the instructors. At the end of the second day, the trainees were assessed to measure their ability to deal with such cases.

IMET2000 Organised Two Basic Life Support Training Workshops this February

IMET2000-Pal in cooperation with the Palestinian National Nursing and Midwifery Association (PNNMA) and the Arab American University (AAUP) organised two training workshops attended by 17 doctors and nurses from governmental and private hospitals on:

Critical Core Training: Basic Life Support (BLS) training for Healthcare Professionals

The workshops took place at IMET2000-Pal Training Centre at Ramallah. These trainings aimed to provide instructions and practical sessions about Cardiopulmonary Resuscitation (CPR) for healthcare professionals, Automated External Defibrillation (AED) and First Aid. They were led by certified instructors from American Heart Association(AHA).
