# IMET2000-Pal Conducted the First Volume of the Soft Skills Developmental Programme for Healthcare Professionals

This month IMET2000 has organised soft skills programme which consisted of three sessions held on March 8th, 15th, and 22nd. Dr Malik Zaben, CEO of IMET2000 and Dean of the Faculty of Medicine at Arab American University, led this programme. The aim of the programme was to equip students and graduates of healthcare disciplines with essential soft skills necessary for a job competition.

The first session was titled "Leadership and Communication Skills for the Next Generation of Healthcare Professionals". The second session, named "CV Writing for Healthcare Professionals" aimed to teach participants how to create an exceptional resume. While the third session, "Interview Skills for Healthcare Professionals," aimed to improve participants' job interview performance.

The Soft Skills Developmental Programme for Healthcare Professionals is a significant initiative designed by IMET2000-Pal to improve healthcare by enhancing healthcare professionals' communication, leadership, collaboration, creative problem-solving, and critical thinking skills. By doing so, the programme ultimately contributes to the development of healthcare.

IMET2000-Pal seeks to achieve its vision of improving healthcare by developing the skills of professionals in the healthcare sector through this programme.

## Another Successful ATLS Course at IMET2000-Pal Training Centre

We have organised our 8th ATLS training course in Ramallah. Our Palestinian ATLS instructors (Dr Aseel Al Tell, Dr Mamoun Mansour, Dr Amer AbuRumaila, Dr Mohammed Bakeer and Dr Mohammad Al Mohtaseb) delivered this and opened by our ATLS director Dr Fahmi Jubran and coordinator Mr Fadi Zaben.

This particular course remarks a collaboration with the Department of Emergency Services at the Ministry of Health- Dr Qawasmeh paid the centre a visit and thanked IMET2000 for their support. In this course, 15 doctors from Governmental and Non-Governmental hospitals all over the West Bank were trained as per the ATLS curriculum. This course is well-recognised for training healthcare staff to effectively coordinate and manage trauma cases.

Dr Malik Zaben, IMET2000 CEO said "We aim to continue working with other Palestinian stakeholders to deliver more ATLS courses until we get as many surgeons as possible trained in this vital field. We want to expand this course to involve ATLS for nurses and medical students and hopefully to other areas in Palestine."

# IMET2000 Organised Advanced Cardiovascular Life Support Training Workshop at IMET2000-Pal Training Centre

March 13th&14th 2023, IMET2000-Pal held a workshop covering advanced cardiopulmonary resuscitation attended by 7 doctors and nurses from different hospitals. It was titled:

## Advanced Cardiovascular Life Support (ACLS) Provider Training for Doctors and Nurses

The workshop was opened by miss Marah Qatouni who welcomed the attendees and outlined different events organised by IMET2000. The workshop was directed by Mr Ahmad Houdrob and Mr Akram Shahrour reliable instructors from the American Heart Association. The training involved the use of medical dolls which helped educate the trainees on how to perform advanced cardiac resuscitation on patients that needed immediate aid and allowed them to practice it. This was alongside a scientific and practical explanation provided by the instructors. At the end of the second day, the trainees were assessed to measure their ability to deal with such cases.

# IMET2000 Organised Three Basic Life Support Training Workshops this March

IMET2000-Pal in cooperation with the Palestinian Medical Student's Association (PMSA) and the Arab American University (AAUP) organised three training workshops attended by 26 doctors, nurses and interns from governmental and private hospitals on:

## Critical Core Training: Basic Life Support (BLS) training for Healthcare Professionals

BLS 6th, March, 2023

BLS 12th, March, 2023

The workshops took place at IMET2000-Pal Training Centre at Ramallah. These trainings aimed to provide instructions and practical sessions about Cardiopulmonary Resuscitation (CPR) for healthcare professionals, Automated External Defibrillation (AED) and First Aid. They were led by certified instructors from American Heart Association(AHA).

BLS 22nd, March, 2023
