Basic life Support Training  
Workshops**

4

**IMET2000 Organised Two Advanced  
Cardiovascular Life Support  
Training Workshops this Month**

# IMET2000 Supports Students Affected by War with Scholarships

Ghaidaa Turkman

Malak Hroub

Haiaa Al Shaikh Hussein

In a move that reflects IMET2000's commitment to developing medical education and healthcare in Palestine, IMET2000 has launched a new partial scholarship programme specifically aimed at medical and nursing students affected by war and the current political situation.

IMET2000 has provided scholarships to 19 students based on academic excellence and financial need from the Arab American University, An-Najah National University and Al-Quds University, Abu Dis.

This initiative represents the first batch of the programme, with the process of sorting applications for subsequent batches to be submitted to other universities.

The programme aims to offer essential support to students, helping them meet their basic needs, advance their education, and contribute to the rebuilding and development of the health sector in Palestine, fostering a better future for all.

Dr. Malik Zaben, CEO of IMET2000, expressed his pride in launching this new programme, emphasising that it addresses current challenges and reflects IMET2000's vision of supporting students and the health sector in Palestine. He also wished all students success in their careers

# IMET2000 Renews Support for Children with Special Needs from the Early Intervention Charitable Society

IMET2000 supports the Early Intervention Charitable Society (EICS) in Beit Awar, Ramallah, for the fourth consecutive year 2024 to cover the treatment expenses of another 18 Palestinian children in 2024 to help EICS with their mission of looking after kids with learning disabilities and mental disorders. EICS is a charity that provides rehabilitation services for children with disabilities from 18 villages in the Ramallah district, mostly from poor families who cannot pay for their children's treatment. Their services include early detection of disabilities, physical therapy, occupational therapy, and speech therapy, all of which are essential for integrating this disadvantaged group of children into society.

Our CEO stated that IMET2000 is very keen to support the efforts of EICS to deliver its current objectives and become a sustainable service. We hope to continue working with EICS and other similar charities to provide access to as many children with physical and mental disabilities as we can, regardless of their financial status.

# IMET2000 Organised Two Advanced Cardiovascular Life Support (ACLS) Training Workshops at IMET2000-Pal Training Centre

IMET2000-Pal held two workshops covering advanced cardiopulmonary resuscitation attended by 12 doctors and nurses from the Military Medical Unit and different hospitals in cooperation with Arab American University (AAUP). It was titled:

## Advanced Cardiac Life Support (ACLS) Course for Physicians and Nurses

The workshop aimed to educate participants on crucial aspects such as managing respiratory and cardiac arrest, symptomatic bradycardia, airway and stroke management, and relevant pharmacology. Additionally, it emphasized fostering effective communication and leadership skills within an ACLS team. The training, conducted by a certified instructor from the American Heart Association, involved the use of medical dolls for hands-on practice in advanced cardiac resuscitation techniques. The session concluded with an assessment to gauge the trainees' proficiency in handling emergency cases.

Training Centre

Arab American University Training  
Centre

IMET2000 Training Centre

These trainings aimed to provide instructions and practical sessions about adult, child, and infant Cardiopulmonary Resuscitation (CPR) for healthcare professionals and Automated External Defibrillation (AED). They were led by certified instructors from the American Heart Association (AHA).

*You got this!*

*We are thrilled to announce that Dr. Tayseer Alawneh has secured a job position in the Internal Medicine Department at St. Heiler Hospital in London. It is worth mentioning that IMET2000 has arranged a clinical attachment for him at the same hospital.*

**Congratulations!**

**Congratulations, Dr. Alawneh!  
We wish you the best and much success in your career**
