IMET2000 Presents Two Key Research Studies at AMEE Conference 2024 in Basel

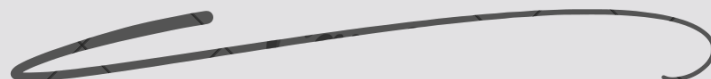

Dr Motaz Daraghmeh, Medical Education Officer at IMET2000, participated in the AMEE Medical Education Conference 2024 in Basel, Switzerland, where he presented two research studies on IMET2000's efforts to enhance healthcare education in Palestine.

On 27th August 2024, Dr Daraghmeh delivered an E-poster presentation on a study titled "Enhancing Trauma Care in Conflict Zones: The Impact of Advanced Trauma Life Support Training on Palestinian Healthcare Providers." This study highlighted the success of the ATLS programme, organised by IMET2000, in improving trauma care for patients in conflict zones. It showcased how the programme has enhanced the skills and responsiveness of Palestinian doctors and healthcare workers in emergency situations.

The following day, 28th August, Dr Daraghmeh presented "Bridging the Gap: Soft Skills Training for Next-Generation Healthcare Professionals," which focused on IMET2000's 2023 initiative aimed at developing leadership and communication skills among healthcare workers in Palestine. The programme seeks to integrate these soft skills with clinical competencies to boost overall performance in the healthcare sector.

Both presentations were well received, underscoring the importance of IMET2000's educational programmes in advancing healthcare in Palestine.

IMET2000 Organised Paediatrics Advanced Life Support Training Workshop

September 4th,5th 2024, IMET2000-Pal organised a workshop titled:

Paediatrics Advanced Life Support (PALS) Provider Training for Doctors

This workshop was attended by 6 doctors from different governmental and private hospitals at An-Najah Training Centre-Nablus.

This workshop aims to discuss the important issues regarding PALS, focusing on the updates of American PALS, 2020, the practice of the paediatric systematic approach, the practice of high-quality CPR (Basic Life Support) for children and infants, giving respiratory and cardiac emergencies and early interventions. Finally, shows Multi-rescuer resuscitation and team dynamics. It was led by our Representative in Palestine, Mr Fady Zaben; a certified instructor by the American Heart Association.

IMET2000 Support Dr Jihad Abu Jalhoum with a Scholarship in the Field of Neurosurgery

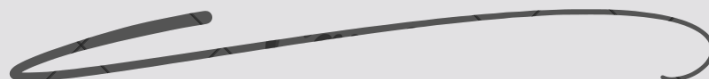

The International Medical Education Trust 2000 has awarded Dr Jihad Abu Jalhoum a scholarship to pursue his specialization in neurosurgery at Mansoura University, Egypt. This initiative aligns with the IMET2000's mission to support health education and professional development in Gaza, particularly in response to the critical need for specialized medical professionals amidst ongoing challenges in the region.

Dr Jihad expressed his deep gratitude, stating: "I sincerely thank IMET2000 for their invaluable support in covering my tuition fees during my fifth year of neurosurgery. This support comes at a crucial time, allowing me to continue my education despite the challenging circumstances. It motivates me to strive for excellence in my studies, and I am committed to making the most of this opportunity."

Dr Jihad Abujalhoum

Dr. Jihad Tawfeq Abujalhoum from Gaza Strip, holds a Bachelor's degree in Medicine from Al-Imam Mahdi University in Sudan. He joined the Neurosurgery Programme at Al-Mansoura University Hospital in 2020, and he passed the first part of the Arab Board exam in Neurosurgery.

IMET2000 Organised Advanced Cardiovascular Life Support Training Workshop at IMET2000-Pal Training Centre

IMET2000-Pal organised training workshop covering advanced cardiopulmonary resuscitation on 16,17/9/2024 attended by 6 doctors and nurses from different hospitals . The workshop were titled:

Advanced Cardiac Life Support (ACLS) Course for Physicians and Nurses

IMET2000 implemented this training workshop at IMET2000-Pal Training Centre which aimed to train participants on crucial aspects such as managing respiratory and cardiac arrest, symptomatic bradycardia, airway and stroke management, and relevant pharmacology. Additionally, it emphasised fostering effective communication and leadership skills within an ACLS team.

The training, conducted by a certified instructor from the Arab American University- Palestine (AAUP) - American Heart Association, involved the use of medical dolls for hands-on practice in advanced cardiac resuscitation techniques. The session concluded with an assessment to gauge the trainees' proficiency in handling emergency cases.

IMET2000 Collaborates with Jasmine Charitable Society to Support Children with Disabilities

Representatives from IMET2000 recently visited the Jasmine Charitable Society for Children with Disabilities to explore opportunities for enhancing collaboration between the two organisations. During the meeting, they reviewed a grant awarded to Mr Ameer Jallad, an occupational therapist supported by IMET2000 at the Arab American University Palestine, in response to the Jasmine Society's critical need for specialists in this field.

The Jasmine Society praised IMET2000 for its contributions to advancing the skills of medical personnel and expressed hope for continued partnership, particularly in addressing the needs of children with disabilities. In recognition of the Jasmine Society's exceptional efforts in supporting children with learning difficulties and disabilities in Palestine, IMET2000 presented the organisation with a special tribute.

IMET2000 Organised Two Basic Life Support Training Workshops this September

IMET2000-Pal organised two training workshops attended by 18 doctors and nurses from governmental and private hospitals on:

Critical Core Training: Basic Life Support (BLS) Training for Healthcare Professionals.

The workshops took place at the IMET2000-Pal Training Centre and An-Najah University Heart Centre.

These trainings aimed to provide instructions and practical sessions about adult, children and infants Cardiopulmonary Resuscitation (CPR) for healthcare professionals and Automated External Defibrillation (AED).

They were led by certified instructors from the Modern College University and An-Najah National University Heart Centres - American Heart Association (AHA).
