The overall mission of the Palestinian Health Sciences Education Centre is to provide high level professional education services to support and enhance the learning capacity of all involved in health science education and service delivery as a continuing lifelong learning experience. In doing so, it will undertake research and development to pioneer and exploit all modalities of the IT revolution including video-conferencing, telemedicine, website learning and internet connections and vehicles such as Moodle, aspiring to establish an international reputation as a center of excellence, eventually to have a major impact on patient care in Palestine.

IMET2000-Pal Anaesthesia Programme is Back on

In collaboration with the World Federation of Societies of Anesthesiologists, the Palestinian Society of Anesthesia and the MoH, IMET2000-PAL resumed its Anesthesia training scheme. This program aims to support safe global anesthesia training. Dr. Moiz a British anesthesiologist volunteered for a month. In this round Palestinian anesthetic trainees were trained on the use of ultrasound technology to offer regional anesthesia. Al-Makassed Hospital, Palestine Medical Complex (PMC), Rafedia Hospital, and Hebron Hospital benefited from this training.

Basic Life Support for Nurses - Session X

IMET 2000-PAL, in cooperation with the American Arab University-Jenin, organised the 10th Critical Core Training: Basic Life Support (BLS). The workshop targeted nurses working at Tubas Governmental Hospital and led by Mr. Ayman Enaya; American Heart Association "AHA" Instructor
