IMET2000 Held Its Annual Gala Event on Zoom

Friday 5th February 2021 at 19:00

IMET2000 held its Annual Gala Dinner on the 5th February on Zoom. The event was attended by approximately 500 generous attendees and raised plenty of money to assist IMET2000 with its many projects.

We are exceedingly grateful for our friends and supporters who managed to join the evening and generously supported us financially and with their time.

IMET2000 Supports the Emergency Council in Nablus District with Essential Equipment to Help Fight COVID-19 Crisis

4th February 2021

We have just donated essential equipment needed for the treatment of patients with COVID-19 to the Emergency Council of Yitma Village-Nablus. This included essential equipment required to support COVID-19 patients with breathing difficulties such as oxygen generator, pulse oximeters, Ambu-bags and sphygmomanometers.

The emergency Council requested this kit of equipment as it would be instrumental in saving lives temporarily until the ambulance arrives at the village to transfer patients upon sudden deterioration. These will benefit more than 4,000 people living in rural areas with limited access to immediate healthcare at Nablus city major hospitals.

IMET2000 Organised Advanced Cardiovascular Life Support Workshops in the Attendance of the Minister of Health

**2nd,3rd February 2021
22rd,23rd February 2021**

IMET2000-Pal held two workshops covering advanced Cardiovascular Life Support were attended by 12 doctors and nurses from different hospitals.

We have been honoured to have Dr Mai Kaileh joining our training workshops in one of Nablus key COVID treatment centres.

Dr Kaileh thanked IMET2000 for continuous support, emphasised the importance of such training and the need for more. This training is among other key courses we are running to enhance the clinical skills of nurse and doctors in the setting of cardio-pulmonary resuscitation.

IMET2000's CEO Interviewed on Maan TV

9th February 2021

IMET2000's CEO Dr Malik Zaben appeared on Maan TV on the 9th of February for an interview, where he discussed what IMET2000 was and what it did, its achievements in the past year and any future plans for the charity. He also spoke about IMET2000's Annual Gala Dinner that was held on the 5th of February, where he discussed who attended the evening including the Palestinian Ambassador to the UK, Dr Hussam Zomlot and the Palestinian Minister of Health, Dr Mai al-Kaileh.

IMET2000 Holds Its Second Workshop on Clinical Audits in The Palestine Medical Complex

31st January 2021

In response to the second request from the education officials from the Palestine Medical Complex, IMET2000 held the workshop:

Clinical Audit for Healthcare Providers

The workshop was held in the Palestine Medical Complex and was attended by 14 doctors, including the Continuing Education officer Dr Hassan Eida. He emphasised the importance these workshops have in improving the field of research in Palestine.

The workshop was directed by the CEO of IMET2000 and lecturer in Cardiff University, Dr Malik Zaben, where he began by starting the importance of medical research and clinical audits in Palestine. He talked about his role in facilitating diagnostic procedures for patients in the future. Dr Eida also noted the constant need for more research workshops and encouraged the attendees to overcome their fear of research and begin involving themselves with it due to its various future benefits. To conclude, Dr Zaben thanked the attendees for attending and stated that these workshops all contribute to improving the field of medical research in Palestine.

IMET2000 Organised Two Basic Life Support Training Workshops this Month

31st January 2021

8th February 2021

IMET2000-Pal in cooperation with American Arab University organised the:

Critical Core Training: Basic Life Support (BLS) for Physicians and Nurses

from different hospitals in the West-Bank at American Arab University-Jenin and Al Rayhan. The two workshops were attended by 20 doctors and nurses. These trainings prompt physicians and nurses to recognize several life-threatening emergencies, give high-quality chest compressions, deliver appropriate ventilations and provide early use of an AED according to American Heart Association Guidelines. they were led by Mr Farid Abu Leil and Mr Fayyez Gannam (American Heart Association "AHA") Instructors

IMET2000's Clinical Research Club Holds a Clinical Audit Workshop in Cooperation with the Medical Research Club at the School of Medicine at Al-Quds University

14th February 2021

In response to requests from the School of Medicine in Al-Quds University, IMET2000 held: My First Clinical Audit as Medical Student: Research Methodology Session 3 (Research Club)

The workshop was held in cooperation with the Scientific Research Club at the School of Medicine and was attended by 55 medical students on Zoom. It opened with a few words from Dr Soheir Erekat the Research Club's supervisor, where she thanked Dr Malik Zaben for responding to the club's requests and welcomed all the attendees. She then expressed her wish that this workshop be held again in the future due to the positive effects it had on the students. The workshop was directed by the CEO of IMET2000 and lecturer at Cardiff University, Dr Malik Zaben. He began by talking about the importance of medical clinical research and clinical audit in Palestine and encouraged students to take it up due to its immense future benefits. To conclude the workshop, Dr Zaben answered any questions the students had and indicated that these sessions will contribute to improving the field of medical research in Palestine.
